Term 3 Prep/1

LITERACY

In literacy, the students will continue to learn their alphabet. Students will learn to name the letters of the alphabet and identify the sounds each letter makes. They will also focus on learning to identify rime in words.

MATHS

In maths, the students will continue with addition and then move onto subtraction. They will also be skip counting by 2, 5 and 10. Students will also learn about statistics and probability, time and the days of the week.

ORAL LANGUAGE

In oral language, our focus is science. Students will be conducting weekly science experiments. They will be encouraged to speak in full sentences when making observations during experiments and will write about their experiments as follow up.

DISCOVERY LEARNING

In discovery learning, students are encouraged to participate in a range of engaging activities within the classroom where they will build on their social skills and oral language.

COMPUTER and LIBRARY

Lots of exciting things are happening in the computer lab! The P/1s are learning how to use all the functions of the computer and to navigate through our many wonderful programs that will engage students in Numeracy & Literacy. Students will also be learning how to stay safe online and to use the internet appropriately via our school website.

In Library, students will be exploring fiction books. We will be incorporating drama, music & play based learning for the juniors to learn rhymes & traditional stories. Students will have the opportunity to do hands on activities through craft & technology to support their lessons.

ART

This term the children will be completing a variety of activities celebrating Find Your Treasure, the Book Week theme, provided by the Book Council of Australia.

Throughout the term, we will incorporate lots of hands on activities to improve fine motor skills and enhance learning through the use of ICT with iPads, notebook computers and the interactive whiteboard.
