

# Term 4 Prep/1

## LITERACY

In Reading, students will be learning about medial sounds and will continue to read numerous times a week with their teacher. In Writing, students will write historical recounts and scientific reports. In Speaking and Listening, students will learn to speak in full sentences when sharing with their peers.

## MATHS

In maths, the students will learn about sharing, Australian money, connecting events with days of the week, 3D shape and location.

## INTEGRATED INQUIRY

In Integrated Inquiry, our focus is *Family History*. Students will be learning about and sharing their personal family history with their peers, they will learn about diverse family structures and will learn about different cultures and celebrations unique to their family.

## DISCOVERY LEARNING

In discovery learning, students are encouraged to participate in a range of engaging activities within the classroom where they will build on their social skills and oral language.

## COMPUTER and LIBRARY

Lots of exciting things are happening in the computer lab! The P/1s are learning how to use all the functions of the computer and to navigate through our many wonderful programs that will engage students in Numeracy & Literacy. Students will also be learning how to stay safe online and to use the internet appropriately via our school website.

## ART

This term the Prep children will be introduced to clay skills such as joining. They will make a clay face and they will then paint it.

In Library, students will be exploring fiction books. We will be incorporating drama, music & play based learning for the juniors to learn rhymes & traditional stories. Students will have the opportunity to do hands on activities through craft & technology to support their lessons.

Throughout the term, we will incorporate lots of hands on activities to improve fine motor skills and enhance learning through the use of ICT with iPads, notebook computers and the interactive whiteboard.
