The Grade 5/6’s were invited to attend a reading session at the Thomastown Local Library to listen to local author Sally Rippin. She was a great inspiration to the students who have since been reading her novels.

I love writing and illustrating - I have been doing it for as long as I can remember, making books even as a child - and I can’t think of any job that could make me happier. Nowadays, my job also gives me the opportunity to travel to schools in Australia and around the world, running workshops or performing in festivals, which is a wonderful bonus I had never counted on. (Sally Rippin)
